### EXAMINER'S AMENDMENT

1. The Office Action is in response to August 18, 2003 (paper #20) Amendment entered for application number 09/357,836.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
3. Authorization for this examiner's amendment was given in a telephone interview with Victor C. Moreno (Reg. No. 40,732) on November 5, 2004.

The application has been amended as follows:

*In the specification:*

4. *In the first page, after the title, **please delete** "The present application is related by subject matter to U.S. Application Serial No.----- (Atty. Dkt. No. 032374-002) entitled -----, filed on even date herewith and incorporated herein by reference." and **replace with** -- The present application is related by subject matter to U.S. Application Serial No. 09/440,461, now U.S. Patent Number 6,732,162.--*
5. *In page 6, line 26, please replace "an media " with - a media -*

### ***Allowable Subject Matter***

6. Claims 2-6, 8-10, 13, 15-24, 26-30, 32-55, 57-71, 73-81, 84, and 85 are allowed.
7. The following is an examiner's statement of reasons for allowance:  
  
The present invention relates to processing, transportation (uploading and /or downloading) and Internet publishing (or viewing) of digital content. The prior art of

record fails to teach the combination of claim elements including "the media object identifier being embedded within third-party web site, the media object identifier," and "pre-processing the media object by the media object identifier for the requirements of the third-party web site, the pre-processing being done without additional user selection of the pre-processing" as specified in independent claims 15 and 48.

Likewise, the prior art of record also fails to teach the combination of claim elements including "pre-processing the media object by the media object identifier for the requirements of the third-party web site, the pre-processing being done without additional user selection of the pre-processing" as specified in of independent claims 16 and 49.

The prior art of record also fails to teach the combination of claim elements including "pre-processing the media object at the local computer without user selection of the pre-processing, wherein the web page contains parameters user to control the pre-processing" as specified in claims 50 and 66.

Thus, the prior art of record neither renders obvious nor anticipates the combination of claimed elements in light of the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
